## PREPARER'S INSTRUCTIONS FOR SELF-EMPLOYMENT WORKSHEET

The purpose of the Self-employment Worksheet is to provide a method of computing income for individuals whose income is derived from their ownership of a business, but who are not salaried by that business. If a business owner draws a regular salary, their income should be considered to be derived from employment, and their energy assistance application should be processed accordingly. For example, an owner of a restaurant who draws a paycheck the same way as other employees would have that income considered to be derived from employment rather than from self-employment and would not complete this form.

Please note that beyond answering basic questions relating to the self-employment form, workers processing energy assistance applications cannot assist with computing or completing information contained in the form, since the form includes a certification by the business owner attesting to the accuracy and completeness of the information. Further, the form must be based solely on those costs directly related to the designated business.

**Please read these instructions thoroughly before completing a Self-employment Worksheet.**

### **GENERAL DATA SECTION:**

#### **A. BUSINESS OWNER'S NAME**

Self-explanatory.

#### **B. SOCIAL SECURITY NUMBER**

Self-explanatory.

#### **C. BUSINESS NAME**

Enter the full legal name of your business.

#### **D. TELEPHONE NUMBER**

Enter your business phone number.

#### **E. BUSINESS ADDRESS**

Enter the complete address of your business. This cannot be a Post Office Box number. Use your home address only if you actually conduct business from your home.

#### **F. MAIN BUSINESS ACTIVITY**

Enter the business activity that accounts for your income. Provide the general field as well as the product or service, for example, Wholesale-Groceries, Retail-Hardware or Profession-Electrician.

#### **G. ACCOUNTING METHOD**

Place a mark to indicate the accounting method used by your business to record accounting information. If the checkbox labeled "OTHER" is marked, indicate the accounting method used.

Note: The difference between cash versus accrual based-accounting relates to the timing and recording of expenses and revenues. It is anticipated that most business owners completing this form will use a cash-based accounting system, in which case business expenses and revenues are recorded at the time they are paid or received. Most small businesses prefer this method.

Accrual-based accounting is a method by which expenses and revenues are recorded when they are incurred or earned, whether or not cash has traded hands (such as a sale based on credit). Accrual-based accounting can be used by small companies if they so choose, but it is required to be used when a company has five million dollars or more in annual sales, or one million dollars or more in annual inventory-based sales. Most large businesses use this method.

## **H. TIME PERIOD COVERED BY REPORT**

This form must be completed for either the six (6) or twelve (12) full calendar months immediately prior to the energy assistance application date. For example, if your application is taken on December 17<sup>th</sup>, and you choose to complete this form for a six-month period, the dates indicated in this section would need to be from June 1<sup>st</sup> through November 30<sup>th</sup>.
